Sir:

In response to the Action dated February 11, 2005, please reconsider this application in light of the following Remarks.

**REMARKS**

Applicant thanks the Examiner for allowing claim 15 and indicating that claims 9-14 and 20 are directed to patentable subject matter. In view of the allowability of the remaining claims in this application, applicant respectfully declines to amend them at this time.

Claims 1-4 and 7 again stand rejected as anticipated by Hess. The Examiner states that Hess discloses "inlet 32 arranged tangentially to cylindrical body 38 of the vessel as shown in Fig. 1," and also presents his opinion that Hess discloses "timer 44-48 for controlling the rate of water inlet in comparison with the water outlet rate so as to vary the height of the volume in the vessel." This rejection and its supporting reasoning are respectfully traversed.
